

Health Certificate for Pepper Seeds

Revadim-P&S-QC-SH-FO-103.03

To Whom It May Concern,

Date: 11/6/2017

We hereby declare that the greenhouses used for the production of the pepper seeds have been under the supervision of the Plant Protection and Inspection Services (PPIS) of the Ministry of Agriculture and Rural Development and by Zeraim Gedera inspectors.

Seeds from batch number 1246557 were tested and have been found clean and free of the following pathogens:

1. *Xanthomonas campestris* pv. *vesicatoria*
2. *Erwinia carotovora* pv. *carotovora*
3. *Tobamoviruses*

End of certificate.

Yours Sincerely,

Dana Jacob

Zeraim Gedera Quality Control Labs Manager
